Art.-No. 1573032

### Description

CORINGTINE D=25\*150 / MOUNT M10

### Highlights

- Suitable for aerating and to control thatch by pressing out a core.
- For smaller working depths within the root bed.
- Conical tine tip with knife edge for a clean cut at the edge of the hole.
- Ejection channel guiding the core to eject and deposit the core cleanly.
- Optimal balance between wall thickness and core for long life with maximum soil opening.
- Additional processing of the cores by clearing, taking away or processing
- Cutting through compaction levels.

### Technical data

Tip	STANDARD
Quality	STANDARD
Product Category	Coring
Brand	WIEDENMANN
Machinetype	TERRA SPIKE GXI 6
	TERRA SPIKE GXI 8

### Unit mm

Tine mount	M10
Outside diameter	25,00
Inside diameter	16,00

Working depth	150,00
Total length	211,00
Wall thickness	3,05

Unit inch

Outside diameter	1
Inside diameter	5/8
Working depth	6
Total length	8 5/16
Wall thickness	1/8
Tine mount	M10
